

Jonathan Diaz

Systems Administrator | Microsoft 365 | Azure AD / Entra ID | Active Directory | Azure Virtual Desktop

Miami, FL | 786-400-5936 | Diazjonathan6421@gmail.com | linkedin.com/in/jonathan-diaz-it

PROFESSIONAL SUMMARY

Systems and infrastructure IT professional with 4+ years of experience owning IT operations for a 65-user CPA firm. Administers Microsoft 365, Exchange Online, Active Directory, Azure AD / Entra ID, Azure Virtual Desktop, Windows Server, VPN access, endpoint lifecycle, backups, and vendor-managed infrastructure. Trusted as the primary technical owner for executive support, business-critical accounting applications, remote access, migrations, infrastructure cleanup, and day-to-day production support.

CORE ENVIRONMENTS

Identity & Collaboration	Microsoft 365, Exchange Online, Teams, SharePoint / OneDrive, Active Directory, Azure AD / Entra ID, MFA, Conditional Access, Group Policy
Systems & Endpoint	Windows Server, Windows 10/11, Azure Virtual Desktop, endpoint lifecycle, workstation imaging/provisioning, patching, backups, remote access
Network & Security	DNS, DHCP, VPN, Cisco / Meraki / Fortinet fundamentals, firewalls, switching, Barracuda & Mimecast Email Security, SentinelOne, security policy support
Business Applications	CCH Axcess, ProSystem fx Engagement, Knowledge Coach, QuickBooks, Right Networks, DataSnipper, Box, Adobe Acrobat, Karbon planning

PROFESSIONAL EXPERIENCE

HLB Gravier LLP - Lead Systems Administrator (Systems & Infrastructure) | Miami, FL | April 2022 - Present (4+ years)

- Own the internal IT function for a 65-user CPA firm, serving as primary technical contact for staff, firm leadership, MSPs, and infrastructure/application vendors.
- Administer Microsoft 365, Exchange Online, Active Directory, Azure AD / Entra ID, Azure Virtual Desktop, Windows Server, DNS/DHCP, VPN access, endpoint security, and file access controls.
- Manage user and device lifecycle: onboarding/offboarding, permissions, shared mailboxes, MFA / Conditional Access, license assignment, workstation provisioning, patching coordination, and hardware support.
- Support production accounting and finance applications including CCH Axcess, ProSystem fx Engagement, Knowledge Coach, QuickBooks, Right Networks, DataSnipper, Box Drive, Adobe Acrobat, and AVD-hosted workloads.
- Lead infrastructure modernization projects including cloud migration, VoIP replacement, email archive migration, workstation refreshes, server decommissioning, and Box-to-SharePoint/Karbon transition planning.
- Direct and validate vendor work with CompassMSP, Microsoft, Wolters Kluwer/CCH, Barracuda, Right Networks, telecom providers, cabling/access-control vendors, and hardware suppliers.
- Provide escalation-level troubleshooting across desktop, server, network, remote access, printing, application, and identity issues while maintaining technical documentation and implementation notes.

SELECTED INFRASTRUCTURE PROJECTS

Cloud & File Platform Modernization: Supported migration of on-premises file services and user data to Box for approximately 70 users and 12 servers; currently helping plan replacement of a 3.4 TB Box environment with SharePoint/OneDrive and Karbon client portal workflows.

Azure / Remote Access Infrastructure: Coordinated migration and re-hosting of business workloads through Azure Virtual Desktop and vendor-hosted platforms, improving remote access to QuickBooks and line-of-business applications.

VoIP & Conference Room Modernization: Led transition from legacy Avaya telephony to Microsoft Teams / Office@Hand, including conference room phones, receptionist workflows, and support for hybrid users.

Security, Backup & Legacy Cleanup: Assisted with backup/patching processes, MFA and Conditional Access enforcement, endpoint protection, email security migration, and retirement of aging servers, storage, fax, firewall, and workstation assets.

TECHNICAL STRENGTHS

Infrastructure Ownership: Small-team IT ownership, executive support, vendor direction, escalation handling, documentation, and project coordination.

Endpoint Engineering: Windows fleet lifecycle, workstation builds, software rollout support, patching, troubleshooting, hardware procurement, and asset retirement.

Automation / Admin Tools: PowerShell and command-line troubleshooting, Netwrix, Veeam, Goverlan, ManageEngine, SolarWinds, M365 admin centers, and vendor portals.

EDUCATION

B.S. in Information Technology - Florida International University, Miami, FL | 2021

A.A. in Computer Management - Miami Dade College, Miami, FL | 2019
